

**2026 Report Francophone member at large:**

In my role as Francophone Member-at-Large for CATE, I worked closely with the executive team over the past year to ensure that all communications were available in both official languages. This included contributing to the bilingual development of the CATE website and newsletters to improve accessibility and inclusivity for Francophone members.

I also actively encouraged and supported members in delivering presentations in French or in a bilingual format, offering guidance where needed to facilitate participation. During the CSSE conference, I contributed to French-language communications to help ensure consistent representation and engagement across both linguistic communities.
