

AGM Motion

Background: CATE receives more submissions than any other group for CSSE; very few are in French. It is unrealistic for one person to manage all submissions.

Proposal: This is a motion to create a “Conference Committee” to be responsible for reviewing CATE submissions for CSSE, grouping sessions together, creating the program, and organizing the CATE dinner. The Conference Committee would be led by the Vice President (one of the three members). If no one on the conference committee speaks French, they will connect with the Francophone member on the Executive for assistance in reviewing proposals submitted in French and assigning reviewers in French. One committee member would have a one-year term. A second committee member would have a two-year term. Only the Vice President would be responsible for sitting on the Executive and attending the Conference Planning sessions (for CSSE).

Motion: That CATE AGM approve the creation of the Conference committee.
